Our Waste Policy

Logoplaste is committed to protecting the environment by implementing an effective waste management program that meets legislative and regulatory requirements. Therefore, we will strive to prevent or reduce waste through process improvements, technology, awareness and training.

The waste hierarchy shall be applied at all sites to ensure our environmental impact is continually reduced.

SPECIFIC REQUIREMENTS

- Our plants, equipment, and processes will be suitably maintained to maximize efficiencies and reduce waste
- When selecting chemical materials (oil, lubricants, solvents, refrigeration gases...) always choose the best environmentally friendly material
- Waste from any Logoplaste site will not be landfilled or incinerated on-site. This practice is strictly forbidden
- Clearly labelled waste containers will be provided in offices, welfare facilities and departments to help collect and segregate waste cardboard, plastics, metal, and paper for correct disposal
- Employees, contractors, and visitors will be provided with training, information, and the correct containers to encourage recycling to aid in proper disposal
- All our sites will have complete visibility of the waste generated by the site and disposal methods. This includes waste removed from the site by an approved contractor and collected by the property owner/business owners
- We will not send our waste to countries with limited infrastructure to reuse, recycle or correctly manage and dispose of our waste
- We will only use authorized waste contractors to guarantee safe and efficient waste removal and subsequent processing
- If we become aware that our waste has been incorrectly disposed of, or managed by the waste contractor, we will collaborate with the local authorities to aid in the containment and clean-up. The waste contractor will be banned in all our facilities.
- Sites will keep records of all hazardous waste transfers/manifests. The plant will use this information to check the amount of waste produced and how and where it is disposed of

To reduce the chance of you inadvertently not receiving any notice or disclosure, we prefer to provide all of the required notices and disclosures to you by the same method and to the same address that you have given us. Thus, you can receive all the disclosures and notices electronically or in paper format through the paper mail delivery system.
